**TITLE:**

EVALUATION OF MOTORISTS WARNING SYSTEMS FOR  
FOG-RELATED INCIDENTS IN THE TAMPA BAY AREA

**ABSTRACT:**

Investigation to determine extent of fog patterns and fog-related incidents in the Tampa Bay area, and suitable countermeasures to detect and warn motorists of fog conditions. Fog warning systems in Alabama, Arkansas, Georgia, New Mexico, Tennessee, Idaho, New Jersey, South Carolina, Louisiana, Oregon, Utah and California are discussed. Types of fog, conditions conducive to formation, and visibility detection technologies are also covered.
